

**Sermon Series:**

Exodus - God's Great Rescue

**Today's Message:**

Exodus 3

1. Recap God's conversation with Moses from the bush. When pondering God's plans for your life, how do you think God communicates with you today? How does God's communication with Moses compare to His communication today?
2. If God showed up and spoke clearly to you from a bush, do you think it would be simpler, or more difficult, to follow God's plans for your life?
3. If God promised to be with you and accomplish His plan through you, would you need anything else to move forward and follow Him? Did Moses want to know more? Why? Do you believe God has promised to accomplish His plans through you?
4. God reminded Moses that he was an Israelite. Do you think Moses ever felt disconnected from the Hebrew people while in the desert? Have you ever had a "desert" experience and felt disconnected from God and His people? Share your story.
5. "God equips those He calls." Did Moses believe that he was equipped to deliver the people? What has God called you to do in this life? Do you feel equipped to do it?
